

Carpenter's Helper / Construction Equipment Operator

Operations Services — *Building Maintenance*

POSITION PERIOD

Full Time, Permanent (40h)

SOMMAIRE DU POSTE

The incumbent supports carpenters in the construction, renovation, and repair of wooden structures and other materials. Their role is essential in assisting with the physical and technical tasks required to complete construction projects.

ROLE AND RESPONSABILITIES

- Load and unload materials and equipment on the worksite.
- Assist in preparing materials and tools required for construction projects.
- Help install foundations, walls, beams, roof frames, and other structures according to plans and the carpenters' instructions.
- Assist in cutting, trimming, shaping, and assembling wood and other construction materials.
- Use hand and power tools to cut, shape, adjust, and assemble materials.
- Assist with various tasks as needed by carpenters and the construction team.
- Hold a valid license and be able to operate construction equipment such as scissor lift, boom truck, forklift, backhoe, etc.

Required Skills:

- Ability to follow precise instructions.
- Good physical condition to perform manual tasks and carry heavy loads.
- Ability to work effectively under supervision.
- Attention to detail and adherence to quality standards.

Qualifications:

- Previous experience in construction or a related field is an asset.
- Basic knowledge of tools and equipment used in carpentry.

Caution: The above statements reflect the characteristic elements of the identified job and are intended to describe the general nature and level of work performed and should not be construed as an exhaustive enumeration of all inherent occupational responsibilities, duties, abilities, and requirements. All staff members may, from time to time, be required to perform tasks outside the scope of their normal responsibilities, as required.
